#### Interested Research Fields:

- \* Systems analysis and design in manufacturing organizations
- \* Dynamic system planning and optimization
- \* Strategic decision making under changing environments
- \* The future of manufacturing systems including visionary study upon the attribute of Next-generation manufacturing environment
- \* System modeling in manufacturing systems

### Courses:

The Fundamental of Systems Optimization -

Systems Architecture & Engineering Design -

Project Control and Management -

System Dynamics -

Systems Engineering and Management -

Operations Research -

Manufacturing Systems Analysis & Desig -

Strategic Planning and Management -

Decision Theory and Risk Analysis -

Production Planning and Control -
